Request for Raffle Prize Donations – Supporting Science Learning

Dear Parents/Carers,

We hope this message finds you well.

As part of our ongoing commitment to enriching students' learning experiences, the Science Department is raising funds to purchase new equipment that will enhance practical lessons and provide students with more hands-on opportunities in the classroom.

To support this, we will be holding a **raffle**, and we are kindly asking for donations of raffle prizes from our Year 7 families. This year, we are linking the raffle to our new house system, and each tutor group will be collecting items based on a specific colour:

- **Yellow - 7DHA and 7JHO**
- **Purple - 7GMI and 7DGO**
- **Red - 7EYE and 7TCL**
- **Blue - 7DJE and 7DWI**
- **Green - 7JBO and 7MGR**

We would greatly appreciate any donations that match your child's tutor group colour. These could include small gift items, stationery, sweets (non-perishable), or themed products—anything that could make an exciting raffle prize.

All contributions, big or small, will make a meaningful difference and help us provide better resources for our students' science education.

Please send in any donations with your child by **Friday 26th June 2026**, ensuring items are handed to their tutor who will hold these items and hand them over to the Science Department. Thank you in advance for your generosity and support.

We will hold the raffle on the night of the **Science Fair finals on Thursday 2nd July 2026**, and hamper winners will be announced the following week, commencing Monday 6th July 2026.

We will be showcasing the Y7 science fair projects at the STEAM Festival evening, when the judging of these projects will also take place. Our technology, engineering and arts

department are also exhibiting the GCSE and A Level students' work created over the past two years .

Thank you in advance for your generous donations, and we look forward to seeing you and your student on Thursday 2nd July.

Yours sincerely,

Lindsey Cox
Teacher of Science
